SUMMARY

WordPress Developer with 2+ years of experience, specialized in building corporate websites and e-commerce stores using WordPress, Elementor, ACF, and WooCommerce. Highly skilled in Elementor, building websites element by element to ensure high performance, clean structure, and scalability.

Experienced in custom theme development, speed optimization, SEO fundamentals, hosting management, migrations, and DNS setups, with additional front-end skills in React / Next.js for delivering modern, high-performance digital solutions

PROFESSIONAL EXPERIENCE

WordPress Developer – Qawabid

April 2025– April 2026

- Developed professional WordPress websites for companies and organizations.
- Built modern landing pages using Elementor.
- Created Custom Post Types and advanced custom fields using ACF.
- Customized themes and optimized website speed (Core Web Vitals).
- Built complete WooCommerce stores and configured payments.
- Fixed website issues, managed migrations, and handled DNS/hosting.

Oracle Developer- Egyptian Armed Forces Engineering

April 2024– April 2025

During my military service, my role in Major Projects Management (Engineering Authority) involved developing effective solutions using Oracle tools such as Form Builder and Report Builder. This experience significantly deepened my understanding of databases and backend systems. On the frontend, I built modern, responsive interfaces using React and Redux—bridging the gap between frontend and backend development with a well-rounded, full-stack perspective.

Front-End Developer – Freelance

August 2023– April 2024

- Built interactive and responsive interfaces using React.js and Next.js.
- Implemented authentication systems using Clerk.
- Improved UI/UX and optimized frontend performance.

EDUCATION

Mansoura University

2019– 2023

Bachelor of Computer and Information Science (IT Department)

Graduation Project

Remote Booking System for Labs & Medical Services (Grade: A+)

- Tech Stack: React.js, Node.js, MySQL, Firebase, Bootstrap, REST APIs
 - Methodologies: Agile Development, Modular Design, User-Centered UX
